

FOREHEAD THERMOMETERS

Liquid Crystal
Temperature Monitoring

ATI liquid crystal forehead thermometers provide accurate core temperatures quickly and easily. They're your ideal solution for H1N1 or pandemic kits, as well as general healthcare, hospitals and surgery centers.

You need to take quick, decisive action when body temperatures begin to rise, especially with the growing concerns of widespread influenza and other pandemics. ATI's expertise in liquid crystal technology answers the challenge with quality, FDA-approved forehead thermometers.

You can build cost-effective pandemic or H1N1 kits using our Class 2 medical devices. During any illness outbreak, ATI forehead

thermometers provide a critical first line of defense. Early fever detection not only helps prevent the spread of illnesses, but it also ensures faster treatment.

Accurate temperatures, ease of use and low cost per unit are a few of the benefits you can expect with ATI forehead thermometers. No wonder they're a preferred choice for schools and medical facilities.

Prepare for the unexpected with the expertise of ATI.

Item #: C-8701 - Celsius Forehead Thermometer
Response Temperature: 35°C, 36°C, 37°C, 38°C, 39°C, 40°C
Size: 2.96" x .439"

Item #: C-8702 - Dual Scale Forehead Thermometer
Response Temperature: 35°C/95°F, 36°C/96°F, 37°C/98°F, 38°C/100°F, 39°C/102°F, 40°C/104°F
Size: 2.938" x .4375"

Item #: C-8704 - Dual Scale Forehead Thermometer
Response Temperature: 35°C/95°F, 36°C/96°F, 37°C/98°F, 38°C/100°F, 39°C/102°F, 40°C/104°F
Size: 2.25" x .75"

Item #: C-8787 - Single Use Forehead Thermometer
Response Temperature: 95°F, 96.8°F, 98.6°F, 100.4°F, 102.2°F, 104°F
Size: 1.75" x .5"

Gain a higher degree of confidence.

ATI forehead thermometers are backed with years of proven research, manufacturing support and service. That's why so many people rely on ATI to prepare for the unexpected. Designed for extended shelf life, ATI forehead thermometers are essential elements in any pandemic, H1N1 or emergency first aid kit.

React quickly. ATI forehead thermometers offer a fast, accurate way to monitor core body temperatures and take prompt preventive action. You can obtain an accurate temperature in about 15 seconds. It's simply a matter of watching the liquid crystal display until the colors stop changing. And since you can take temperatures non-invasively, the forehead thermometers are ideal for use with children and surgery center patients.

Get precisely what you need. ATI offers a variety of forehead thermometers, including customized solutions to meet your exact needs. You can choose specific temperature scales and ranges, adhesive-backed or non-adhesive thermometers, single or multiple use models, various sizes and more. Our hypoallergenic adhesive-backed thermometers protect those with sensitive skin and are commonly used in surgical applications. Whatever solution you choose, you can be assured of 360 degrees of responsive service with ATI.

Specifications

Design formats:

Fahrenheit, Celsius or Dual Scale
 Non-adhesive, adhesive or hypoallergenic adhesive

Single use or reusable

Range: Typically 94°F to 104°F and/or 35°C to 40°C

Accuracy: +/- 1°F / 0.6°C

Configurations: Standard or Customizable

Classification: Class II Medical Device

Shelf Life: Extended
